

## TROUT

**STREAMLINED LOOP**

### APPLICATIONS/FEATURES:

- Ideal for traditional dry fly presentations
- Supple coating and low memory
- Delicate and accurate
- Exceptional performance in typical trout climates
- Welded Streamlined Loop – slick and strong – for easy connections and seamless fishing (front)

### WF TAPER CHARACTERISTICS:

- Concave compound front taper for positive turnover and delicate delivery with typical trout flies
- Mid-length head offers best performance at short to medium distances
- Convex compound rear taper maintains good mending and casting properties without adding excess weight
- A great all-around trout line – especially for casting small to medium trout flies short to medium distances

WT	TIP	FRONT TAPER	BELLY	REAR TAPER	RUNNING LINE	HEAD LENGTH	TOTAL LENGTH
3	0.5'	4.8'	21.2'	9.0'	55.0'	35.0'	90.0'
4	0.5'	5.5'	21.5'	10.0'	53.0'	37.0'	90.0'
5	0.5'	6.3'	21.7'	11.0'	51.0'	39.0'	90.0'
6	0.5'	7.0'	22.0'	12.0'	49.0'	41.0'	90.0'
7	0.5'	7.8'	22.2'	13.0'	47.0'	43.0'	90.0'

### DT TAPER CHARACTERISTICS:

- Same taper characteristics in a DT design

WT	TIP	FRONT TAPER	BELLY	REAR TAPER	TIP	TOTAL LENGTH
2	0.5'	4.0'	82.0'	4.0'	0.5'	90.0'
3	0.5'	4.8'	80.4'	4.8'	0.5'	90.0'
4	0.5'	5.5'	79.0'	5.5'	0.5'	90.0'
5	0.5'	6.3'	77.4'	6.3'	0.5'	90.0'
6	0.5'	7.0'	76.0'	7.0'	0.5'	90.0'

### CORE:

- Braided multifilament nylon

### COATING:

- Specially formulated 3M PVC integrated with patented AST – Advanced Shooting Technology
