

NYMPH

APPLICATIONS/FEATURES:

- The perfectly balanced nymph line – now made with new Dry Tip Technology for fly fishing's ultimate floating fly line experience
- Powerful front taper for longer casts with weighted nymphs
- Easily turns over bigger flies, indicators, and shot
- Better mending, stack mending, and roll casting
- Ideal for nymphing in big water, especially when using single-hand spey casting techniques
- Two-tone color helps you know when to recast
- New orange indicator tip helps detect strikes

TAPER CHARACTERISTICS:

- More powerful front taper turns over weighted-flies, split-shot, and wind-resistant strike indicators
- Extra-long compound tapered head improves line control, mending, and stack mending
- Extra-long head length allows single-hand spey casting and overhead casting
- Larger tip diameter, with Dry Tip Technology, for optimum floatation
- High-floating for easier mending and better strike detection

WT	FRONT TIP	FRONT TAPER	FRONT BELLY	REAR BELLY	REAR TAPER	HANDLING LINE	RUNNING LINE	HEAD LENGTH	TOTAL LENGTH
4	0.5'	5.5'	20.0'	25.0'	15.0'	10.5'	24.0'	65.5'	100.0'
5	0.5'	6.0'	20.0'	25.0'	15.0'	10.5'	23.5'	66.0'	100.0'
6	0.5'	6.5'	20.0'	25.0'	15.0'	10.5'	23.0'	66.5'	100.0'
7	0.5'	7.0'	20.0'	25.0'	15.0'	10.5'	22.5'	67.0'	100.0'
8	0.5'	7.5'	20.0'	25.0'	15.0'	10.5'	22.0'	67.5'	100.0'

CORE:

- Braided multifilament nylon with optimum air entrapment for minimum memory, maximum floatation

COATING:

- Specially formulated 3M PVC integrated with patented AST and Dry Tip Technology

COLOR: Willow/Orange

MATCHING LEADER: *Mastery Series Trout*
